

## 4. Economic Profile

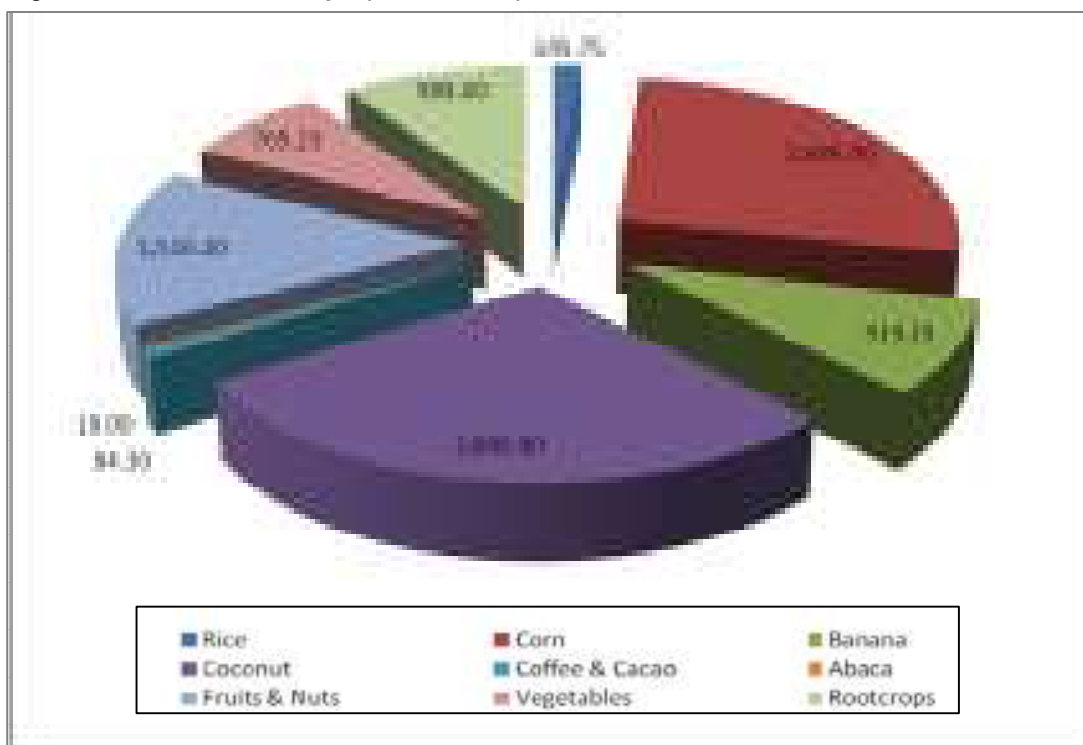

The confluence of factors: rapid population increase, rich agricultural and forest lands, minerals, scenic tourist spots, bodies of water, good infrastructures and utilities, the concentration of health, educational and research centers and favorable peace and order condition – make the City of Cagayan de Oro a favorite investment and tourist haven and one of the fastest growing cities in the country.

### 4.1 Agriculture

4.1.1 About 32.43 percent of the City's total land area (57,851.0000 hectares) is devoted to agriculture in 2015. Of this, 10,015.63 hectares has been used for crops production. See figure 12 below.

4.1.2 Crops produced are both food and commercial crops. Food crops include rice, corn and vegetables while commercial crops are abaca, banana, cacao and coffee, root crops and fruits and nuts. Graph below shows that among the crops planted, coconut has the largest area covered.

## 4.2 Livestock and Poultry

4.2.1 Hogs' population is highest among the livestock, comprising 59.45% in 2014 and 52.81% in 2015 (Table 28).

Similarly, hogs ranks highest in number which is 86.6% of the total slaughtered animals in 2014 and 87.14% in 2015. All animals slaughtered passed the meat inspection standard (Figure 13).
